

Battery of Forty-six Guns on The Giant Battleship Michigan

Photos by American Press Association.

AN idea of the fighting abilities of the American Dreadnought Michigan may be gained from the fact that she has a battery of eight twelve-inch guns, twenty-two three-inch guns and sixteen small rapid fire guns. She also has two submerged twenty-one inch torpedo tubes. It takes 300 pounds of smokeless powder, costing about \$225, to fire an 850 pound projectile from one of these twelve inch guns. At this rate fighting is made very expensive, and the idea of modern armaments is that fighting, if started at all, shall not last long. The Michigan, with her eight twelve-inch guns, is as powerful in gun fire as the English Dreadnought, with ten twelve-inch guns, except when firing dead ahead or dead astern. She is a 16,000 tonner, her engines are of 16,000 horsepower each, and she makes eighteen and a half knots an hour with ease. Her cost was \$5,000,000.

MAKES REPLY TO CRANE

Dr. W. O. Thompson Says College Life Not Bad as Painted.

Westerville, O., Sept. 14.—Dr. H. A. Thompson, former president of the institution, presided at the opening exercises at Otterbein. He was followed by President W. O. Thompson of Ohio State university, who in his introductory remarks spoke of the sensational attacks of Millionaire Crane of Chicago upon higher education, who claims that drunkenness, licentiousness and low morals in general abound in college student bodies.

President Thompson made a very strong reply, saying that, although some of Crane's facts were undoubtedly true, some were unwarranted and exaggerated. "We are not what we ought to be or we would not be here. Immorality exists everywhere, and is not directly connected with the college."

He dealt at length in the development of his subject, "Problems of College Life," upon the students' spending of time and money. "Do not allow irregularities to break in and wage war upon yourself. The way we spend money is the way to judge our ideal to which we live. We should maintain our self-respect. Time is worth something. You must get on the job. Your college days are days of promise. Your days of fulfillment are fast approaching."

The enrollment at the opening day was large, and President Clippinger predicts a banner year for the university.

DOCTOR IMPLICATED

Society Men Also Figures in the Hawkins Murder Mystery.

Hendersonville, N. C., Sept. 14.—Formal orders for a second inquest for further investigation of the manner in which pretty Myrtle Hawkins, 17, met her death in Osceola lake, indicate that the authorities are near a solution of the mystery. The cloud of mystery which shrouded the girl's tragic fate is being dispelled. Two arrests are expected.

One of the men to be arrested is a young man of social prominence and the other is a physician. It is now regarded as practically certain that the administration of chloroform resulted in the death of the girl. The doctor is said to have come into the case at the instigation of the young man, who sought to save himself from social disgrace.

Wellston, O., Sept. 14.—Robbers gained an entrance to the postoffice here through the cellar and drilled open the savings bank vault, apparently expecting to find the savings of coal miners. The vault was empty and no money or stamps were obtained.

Soldiers Hunt Fiend.

Toledo, O., Sept. 14.—Troop D of Toledo, cavalry, encamped at Camp Perry, was ordered out by Captain Holland C. Webster to search for a stranger who criminally assaulted Edna Bunce, 6, at Elmore, O. The child was not seriously injured.

CHARLES F. F. CAMPBELL

Executive Agent For Ohio Commission For the Blind.

WORKS FOR THE BLIND

Charles F. F. Campbell Employed by Ohio Commission.

Columbus, O., Sept. 14.—Charles F. F. Campbell, secretary for the Pittsburgh Association for the Blind, has been elected executive agent for the Ohio Commission for the Blind, and will assume his duties Oct. 1. Mr. Campbell is known as one of the leading promoters of work for the adult blind in the United States, is a graduate of the Massachusetts Institute of Technology, and afterwards took a post-graduate course in pedagogy at Leipzig.

Mr. Campbell will be remembered by Ohioans because of the campaign he made in 1910 for the Ohio commission, when he visited and delivered lectures in most of the larger cities of the state. Through his activity the legislature of Massachusetts appropriated \$40,000 to carry on the work in that state.

Up to the time of his advent in Ohio few people realized that over two-thirds of the blind lose their sight too late in life to utilize the benefits to be derived from schools for blind children. He has not only tested and brought into use new lines of activity for the blind, but he has also insisted on efforts to make the blind a factor in production in company with seeing workmen.

Loses 'Himself' In Air

Ward Circles Over New Jersey Trying to Locate Himself.

New York, Sept. 14.—James J. Ward, the second flyer to try for the coast-to-coast prize, went into the air from Governor's Island. Just after dusk he settled down near the limits of Paterson, N. J., after a day of hunting through the unblazed air trails. He lost his way over Jersey City, mistook the tracks of the Lehigh for those of the Erie, and swept a wide semi-circle that didn't advance him a great deal on the road to Buffalo.

High, gusty winds brought him to grass twice in the course of the day. But he wasn't hurt, his Curtiss biplane wasn't scratched, and he said that he had every intention of continuing his flight.

Red Men Pick Charleston.

Cleveland, O., Sept. 14.—The Order of Red Men in their annual convention here chose Charleston, S. C., for their next meeting place, in September, 1912. Canton, O., also sought the convention, but lost on the vote.

"DOGFACE" JOHNSON IS SLAYER

Neighbor Arrested Saturday but Discharged For Lack of Evidence, Re-arrested, Pleads Not Guilty, but Changes Mind When Lynching is Threatened—Calls Turnkey and Is Taken Before Court, Where He Is Railroaded to Prison For Life.

Madison, Wis., Sept. 14.—The mystery surrounding the kidnaping and murder of 7-year-old Annie Lemberger, whose body was found in the lake, was cleared by the confession of John ("Dogskin") Johnson, who admitted that he was the child's murderer.

Twenty-five minutes after he called the turnkey and decided to plead guilty, Johnson was sentenced to life imprisonment and was on his way to the penitentiary.

Prohibs Give Victory To Wets

Dry Faction Now Admits Wets May Have Won at Polls.

Portland, Me., Sept. 14.—After it had been successively conceded that Maine had gone wet and then dry, the No-License league startled the state with the announcement that its own figures showed a victory for "the demon rum." This came after it had generally been conceded that the prohibition forces had won. According to the prohibition leaders' own figures the wet plurality was 500. Official returns from cities caused this second shakeup in the figures.

CAPTAIN WEBER DEPOSED

Columbus, O., Sept. 14.—The state board of administration deposed Captain Walton Weber, formerly of Columbus, as head of the Madison home for soldiers' wives, widows and army nurses, and appointed O. W. Kneale, who is not a war veteran. Kneale takes office tomorrow at a salary of \$1,000. The appointment recalls the tragic death of Mrs. Kneale, wife of the appointee, who committed suicide Aug. 15, the day the board of administration took over its duties from the board of trustees and the day that a story was circulated to the effect that her husband's election by the board of trustees was illegal.

Cincinnati, O., Sept. 14.—George Bridges, an aviator, who came to Cincinnati to thrill the natives during the Fernbank dam celebration, ventured out of his element and paid the penalty with his life. Instead of flying across the Ohio river in his aeroplane he sought to cross with his machine in a rowboat. When near the center of the channel an excursion boat, which had on board a large party of members of the National Association of Stationary Engineers, in annual convention here, passed, and the waves upset the boat. Bridges became entangled in parts of his machine and was drowned.

Harmon Willing For Extra Session

Will Call Gerrymander Session Under Certain Conditions.

Columbus, O., Sept. 14.—Democratic members of the legislature are to caucus and reach an agreement as to what bills are to be passed, preliminary to Governor Harmon's calling an extra session of the legislature to convene the middle of November or Dec. 1 to gerrymander the congressional districts.

That is the plan of 10 of the 16 Democratic congressmen, who conferred for two hours. They had been given to understand that Governor Harmon is willing to call the extra session if an ironclad agreement is reached that no bills be passed except such as are approved by the Democratic legislative caucus and that the session shall not last more than 10 days or two weeks.

REJECTED SUITOR SUSPECTED

Police and Deputy Sheriffs Scour City and County For Jesse Newman, Alleged Slayer of Della Halsey—Woman Saw Couple Engaged In Argument, but Thought It Only In Fun Until She Heard Scream For Help, Followed by Pistol Shots.

Kenton, O., Sept. 14.—Dragged from the rear of the Watts bakery, in the south part of the city, Miss Della Halsey, 22, a clerk, was shot through the heart and instantly killed by an unknown party.

Officers are looking over the city and county for Jesse Newman, 22, said to have once been rejected as a suitor by the dead girl. He is said to have been seen in the store just preceding the shooting.

Although no one saw the murder, Mrs. Sandusky Hanners was only a few feet away when it occurred. She had just passed Newman and Miss Halsey and had seen them scuffling at the rear of the bakery, but, as

DICE-MARK CO. STORE AND UNION STATION ROBBED

Amateur Yeggs Break Into Unlocked Safes and Smash the Money Boxes.

Plunder Includes \$86 in Money, Together With a Number of Revolvers and Pocket Knives, While Large Sums Are Overlooked.

Bloodhounds Take Up Trail, Which is Lost at School Grounds, Where Children Thronged in Early Morning—Trail Again Found, Leading to Fairview. Strangers There Board Trains and Escape.

Not safe blowers, or professional light fingered gentry, but just common sneak thieves, are blamed for two robberies in this city at an early hour this morning, in which the B. & O. ticket office till was tapped for \$81.15 and the Dice, Mark Hardware Company's store was robbed of \$5.05, four revolvers and a number of pocket knives, after the big office safe had been opened and cash register and money drawer rifled.

The report that safe crackers had been at work, soon spread, and caused a great deal of interest, but the small excitement quieted down when it was learned that no safes had been cracked, and that the work, to all appearance, was that of amateurs and local amateurs at that, or rather one amateur, as it is believed one fellow turned the trick at both places.

At the B. & O. the robbery is supposed to have occurred about 4:20 a. m., while operator, Chas. Rannels, was out setting the target for a C. H. & D. train and immediately afterward for a B. & O. train. When he returned it was some little time before he discovered that some one had relieved the safe, which was unlocked, of more than \$60 of the company's money, and an amount that belonged to him, aggregating \$81.15.

Most of this money is said to have been in an envelope, and very easy to get hold of, while the remainder was almost as easy to get. When he left the office there was no one present, and when he returned no one had been about the premises so far as he knew, and it is possible that the money could have been taken any time after midnight if any one had been loafing about the office, it is said, and slipped the money in his pocket while the operator's back was turned. This hardly seems possible, or probable, however.

No one had been about the station after midnight, with the exception of a change of operators which was made about three o'clock, when Rannels relieved the other operator.

At the Dice, Mark store it was evident that the thief must have gained entrance to the store by a rear door, which had not been fastened until nearly midnight, some of the employees being busy putting some machinery together, and dur-

ing which time the door was unfastened.

As they were leaving the store for the night, Floyd Wilt fastened the rear doors securely, and it was almost impossible to open the door from the outside without drilling through, but a very simple operation to open the door from the inside. The door was standing ajar a few inches this morning.

The big, four door safe, which was not locked, had been rifled, but contained no money. A deposit box with a steel door inside the safe was smashed. Papers were scattered about in endless confusion. The cash drawer had been broken open and relieved of \$5.05 in cash, while the cash register had been pilfered.

A smaller office safe containing upward of \$300 was untouched, and everything indicated the work of an amateur. Four high-priced revolvers were missing from a show case, together with several good pocket knives. Nothing else was bothered. Bloodhounds were brought down from Jeffersonville and took up the trail, followed it through the rear door, down the alley and out to the Sunny Side school house, where the school children had tracked about, and it was lost.

Three men, said to be strangers, and poorly dressed, were seen in front of the Fayette County Hardware company's store about 3 o'clock and asked Oscar Smith, night porter at the Imperial Hotel, what time the store opened. It is believed that these men were farmers who wanted some piece of machinery, however.

While the fellow who committed the robbery left little behind him for the police to work upon, it is almost certain that he will be captured if he lives in this city, and everything indicates that the rascal was familiar with the store, and also with the habits of the operator at the B. & O. It is hoped that he will be trailed to earth and given the limit. He may be the same man who attempted to rob the Standard Oil company's safe, and the Lloyd Elevator safe some time ago. The police have at least one man under suspicion.

Marshal John Edwards, in charge of the bloodhounds, later followed the dogs on a trail that led down the

Chillicothe pike and around to Fairview station on the C. H. & D., where two men were seen to board trains for Chillicothe, one going on the morning passenger train, and one on a passing freight.

One of the fellows was of medium size, wore a two weeks' growth of sandy beard, and was poorly dressed. No description was secured of the other fellow. At no time during the chase did the dogs lose the trail, and two tracks in the dust indicated that the dogs were after two fellows, but whether the two fellows did the work here and were making their getaway, or were corn cutters or bums, is hard to say. The police at Chillicothe were notified to be on the lookout for the men.

Horse Runs Against Tree Meets Instant Death

A peculiar runaway mishap took place in Wilmington Tuesday afternoon, when a blind horse driven by Mrs. K. H. Tucker of near Sabina, became frightened at some unusual noise and ran away. The animal in trying to dodge a load of hay in the road ran into a tree at the edge of the street, striking its head squarely against the tree trunk and resulting in instant death.

Beyond the animal's death, no damage was done and Mrs. Tucker escaped uninjured.

Lightning Strikes Telephone Wires

During the storm this afternoon lightning struck the wires of the Bell Telephone Co., immediately in front of the exchange on Court street. Fortunately the ground wires and arresters were equal to the emergency and no more serious damage than the burning out of a few phones resulted. The action of the electricity was spectacular in the extreme, causing a very brilliant blaze of fire to envelope the wires, cables and top of the big telephone pole for an instant.

B. & O. OBSERVES SPEED LIMIT ORDER.

Without protest, the Baltimore & Ohio railroad is complying with the order issued Monday, limiting the speed of trains to eight miles an hour, notwithstanding that the observance of the order cut two or three minutes from the schedule.

It is a very unusual sight to see the trains rolling slowly up to the station, as they have been thundering in at a good rate of speed.

DENNEHY-CLARK.

St. Colman's church witnessed an early morning wedding Thursday, when Mrs. Mary J. Clark was united in marriage to Mr. Daniel Dennehy, a wealthy farmer, of near Cedarville.

Rev. Father Fogarty performed the ceremony. Mr. and Mrs. Patrick Burke stood up with the bride and bridegroom, and twenty-five intimate friends were present. The bride wore a handsome tailored suit of dark blue with black hat.

After the ceremony, Mrs. Clark's children, Mrs. Clara Kershner, Miss Helen Clark and Mr. Walter Clark, served an elegant course wedding breakfast, to twenty-five guests.

The table was tastefully decked with pink carnations, cosmos and fern. Mrs. Tapsico catered.

Mr. and Mrs. Dennehy left this afternoon for a trip to Columbus, Toledo and Cleveland before going to their home on the bridegroom's farm and where the bride will be followed by the best wishes of many Washington friends. She received a number of beautiful wedding presents.

Knowing then that the affair was serious, she started to run for help. She had gone only a few steps when the fatal shots were heard. Merrill Fleming was in the store when the murder occurred. He had been using the telephone when a man, thought to have been Newman, entered. He saw the girl and the man go into the back room of the store, but paid no attention to them and was leaving the store when he heard the shots. He is not acquainted with Newman, but says he could identify the man he saw enter the store.

Lightning Strikes S.E. Parrett's Home

During a heavy electric storm early this afternoon a bolt of lightning struck the residence of Mr. Sethe E. Parrett, on Broadway, demolishing the chimney, knocking the plaster from one room, ripping off some weather boarding on one side of the house, and stunning the family slightly.

The bolt set fire to paper beneath the weather boarding and the fire department was called, but neighbors with the use of a garden hose extinguished the fire before the department arrived. Only the hose wagon was sent out, one of the other horses being unable to leave the stable because of a sprained leg, which may render it unfit for service.

The bolt of lightning scattered brick all over the yard, into the street and alley, and severely shocked a number of residents in the neighborhood. All telephones were burned out. Just a few weeks ago a bolt struck another residence within 100 yards of Mr. Parrett's new residence, and served it in much the same manner.

Just a few moments after the bolt struck the Parrett residence another bolt fell in the open field south of the house about 150 yards. A number of heavy bolts fell within the city limits, but the extent of the damage has not been learned, owing to the large number of telephones that were burned out.

Elmer Junk Buys Big Hardware Store

SPURIOUS COIN MAKES APPEARANCE.

A report comes from Columbus that that city is being flooded with spurious silver dollars. They believe that the trouble is due to persons outside of the city, who are making the stuff and sending it in for circulation. The dollars are said to be dark and thicker than normal, but have a good ring which makes them a little difficult to detect.

The police officials there believe the stuff has been circulated by race track followers, some of whom must have been visiting the Mahoning valley, judging by the quality of the stuff going the rounds a few weeks ago.

So far as known any of the spurious coin has not reached this city, and it has been some time since a counterfeit coin—ten-cent piece—have been detected here.

Mr. Elmer Junk of this city and Mr. G. A. Willett, have completed negotiations for the big hardware store of J. C. Conwell & Company, of Xenia, one of the largest concerns of its kind in Greene county, and take charge of the new business today.

Mr. Conwell disposed of the business because of continued ill health, and leaves Xenia, after being established in business there for 26 years and building up an enviable patronage.

The new firm will be known as the Greene County Hardware Company, and will continue to handle everything in hardware, vehicles, etc.

Mr. Junk will move to Xenia in the near future in order to be in close touch with the business. He will have charge of the store, and from his past experience, there is every reason to believe will make it a big success. Mr. Junk was formerly with the National Harvester Company in the capacity of district manager, and severed connection with that firm and became president of the Dice, Mark Hardware Company, and later manager of the Swope garage.

His many friends in Washington and Fayette county will regret to see him leave Washington.

LODGES AND INSURANCE SOCIETIES

ORGANIZE FOR FIGHT WITH WHITE PLAGUE

WISH TO SAVE LIVES AND MONEY

As an investment in the health of their members, four large fraternal orders, two international labor unions, and one of the largest insurance companies in the United States have established sanatoria for the treatment of tuberculosis, according to a statement issued by the National Association for the Study and Prevention of Tuberculosis.

The Royal League, the first fraternal order to establish a sanatorium, conducts a hospital for its tuberculosis members at Black Mountain. The Modern Woodmen of America conducts one at Colorado Springs, the Workmen's Circle, at Liberty, N. Y., and the Independent Order of Foresters have one at Rainbow Lake, N. Y., and will soon open a second one at San Fernando, Cal. The International Typographical Union has since 1898 conducted a sanatorium at Colorado Springs, and the International Printing Pressmen and Assistants Union of America has recently opened a new institution at Rogersville, Tenn. The Metropolitan Life Insurance Company is now erecting a sanatorium at Mt. McGregor, N. Y., which will be the first of its kind to be established by an "old line" insurance company.

In addition to these institutions

already established, the Benevolent and Prospective Order of Elks, the and Protective Order of Elks, the Columbus, the Independent Order of Odd Fellows, and several other orders are considering the advisability of erecting sanatoria for their tuberculosis members. Some of the large fraternal orders and labor unions, like the Ladies of the Maccabees of the World, the International Photo-Engravers Union, and others conduct educational campaigns against tuberculosis, though they do not have sanatoria of their own. The Equitable Life Assurance Society also has recently established a "Conservation Department" in which the prevention of tuberculosis will be given especial attention. Other insurance companies are considering similar action.

Since the membership of the leading fraternal orders alone is nearly 15,000,000, the National Association estimates that about 30,000 members of these lodges die of tuberculosis alone every year. Since more than half of these lives could be saved at a comparatively small outlay, the Association figures that the fraternal orders are losing millions every year in death claims which might be saved.

IMPROVING CONDITIONS.

How long will it be before the United States will have to import grain?

"A good many years—many generations," is the answer the average man would give to that question.

But does that answer come close to the truth? We will see. Last year the farmers of this country produce more than 3,000,000 bushels of corn but less than 2 per cent. of it was exported. The wheat yield was about 650,000,000 bushels and less than 10 per cent. was sent out of the country.

What will happen to us when our population reaches 150,000,000 people? That time is not far away. By the year 1950 there will be that many people in the country.

Will we raise enough cereals to supply our demands 40 years from now? Not unless something is done to increase our acreage and to make our land now under cultivation more fertile, because practically all the public lands in the country are occupied and nothing now remains but to encroach upon the "Great American Desert."

We now have in the United States about 6,000,000 farms, averaging something less than 160 acres each, and yet but 21 per cent. of our land area is in improved farms and but 10 per cent. of it is cropped yearly. We raise about 60,000,000 acres of wheat annually and the average crop for the past 40 years has been less than 13 bushels per acre. The average wheat crop in England is more than 31 bushels per acre. We cultivate almost 100,000,000 acres of corn yearly, with an average yield of only 25 bushels per acre and 29,000,000 acres of oats yielding less than 31 bushels per acre.

How can production be made to keep pace with consumption? By making two blades of grass grow where but one grew before.

Soil fertility must be brought back. Rotation, leguminous crops, deep ploughing, manure fertilizers, moisture conservation by suitable methods of cultivation, checking of erosion—these will increase our yields of farm crops. Through the introduction of scientific methods the Eastern States, with their so-called worn out soils, are in some cases producing more heavily than the newer fields of the west. Maryland, for example, raises more corn per acre than Illinois. Pennsylvania has a greater average wheat yield than Minnesota and Vermont gets more oats per acre than does Iowa.

We have great areas of desert to be brought under cultivation by means of irrigation and nearly as extensive marsh and swamp lands to be made fruitful by means of drainage.

These and many other questions of vital interest to both producers and consumers will be discussed and probably answered at the great national convention of grain dealers to be held in Omaha early in October.

Cranks That Make for Progress of World

By JAMES BRADFORD
Fennville, Mich.

It is the cranks that make for progress in this world, not those satisfied with their lot. If it was not for us cranks and our kicking the race would still be as its ancestors were in the dark ages.

We cranks are kicking against the American's toleration of inefficiency, greed, reckless exploitation of man and beast, rudeness, injustice, graft, vice and corruption, as Dr. Held says, and in time our efforts will make it a better place to live in and we will do it without the aid of those satisfied with present conditions.

I have traveled in every country in Europe except three, in nearly all the coast countries of Africa, in all countries in Asia except four, all coast countries of South America, also in the East and West Indies, south seas, Australia and New Zealand, and have been constantly reminded by foreigners in all parts of the world of our failures, making it so unpleasant that many times I have traveled as a Canadian.

In fact, I never heard a good word spoken of the way our laws are lived up to.

If one would travel and study conditions and national and municipal laws in European and other countries, especially in the British possessions, he would quickly realize the accuracy of these observations.

I am not a foreigner, but I say all honor to the foreign-born cranks who see our failures, especially regarding our laws, which the favored few break with apparent impunity.

Lessen Trials of Nervous School Children

By Mrs. FRANCES KESEY

What is to be done? To do justice to such children is to have one room in each public school set aside, with a special teacher who has a perfect understanding of these poor children and can give them the proper attention, for they need a different training from that required by ordinary healthy children.

Do Not Agree As To Shaker's Guilt

Governors Take Up Florida Case as Side Line.

Spring Lake, N. J., Sept. 14.—On the right of taking human life where death is inevitable, sentiment is sharply divided among the governors in attendance at the conference here.

None of the governors has had a case like that of the Shakers of Florida before him for pardon, and because of the improbability that juries would convict in such a case, they do not expect to be called on to pass judgment. But if such a decision should confront them, most of them made it plain that a pardon would be granted. Governor Gilchrist of Florida is of course the one chiefly interested in the case of the Shakers. He said:

"From the fact that the Shakers were held in such small bail, when a person accused of murder in the first degree can not be bailed at all, I am sure that the circumstances of the case are so well known that those poor people will not be convicted. Certainly not of murder. I doubt whether they will even be indicted."

Employers' liability and workmen's compensation laws were the principal topics discussed, and most of those present expressed favorable views to their passage.

POETRY FOR TODAY

A MODERN VERSION.

When Freedom from her mountain height
Unfurled her standard to the air,
She sought a rock to plant it on,
But found "Use Blank's Emulsion" there.

Down to the plain she fled in haste,
But, lo! each fence and barn and coop
Bore "Buy Boone's Whiskey," "Try Jones's Paint,"
"Stork's Infant Food," and "Ready's Soup."

"Alas! the Art to Advertise,
My country, 'tis of thee!" cried she;
"Look at those men with pots of paint—
Gracious! they're coming after me!"

She fled—the "ad" men still pursued,
"Gee! what an ad she'd make!" they cried;
They followed her o'er hill and dale
Till she took refuge, terrified,

Within the sky—and that is why,
Safe (for a while) in upper air,
She tore the azure robe of night,
And set the stars of glory there!
—Priscilla Leonard.

Rodgers Barred From Race.
New York, Sept. 14.—Cal Rodgers, the husky young aviator who, though he has been only sailing the air for four months, won the endurance contest in the Chicago meet, flying 27 hours in all kinds of winds, has had a difference of opinion with the managers of the Hearst contest to the Pacific coast, and as a result is barred. According to his manager the original announcement read that the contest was open to anyone who entered by Oct. 10 and finished within 30 days. Now it is announced that the flight must be made within 30 days and end not later than Oct. 10.

To Resume Race Saturday.
Alta, Cal., Sept. 14.—Aviator Robert G. Fowler, whose aeroplane was badly wrecked the second day of his transcontinental flight, expects to resume his journey Saturday morning.

Seek Advice or Commission.
Columbus, O., Sept. 14.—Representatives of the American Telephone and Telegraph company went before the public service commission to find out how the commission expects them to proceed in the merging of the telephone companies of the state under the telephone merger sections of the new public utilities act. They made it plain that present plans contemplated the tackling of the easy jobs first and the larger companies, like Cleveland, Columbus and Toledo, last of all.

EVERYBODY'S BIBLE QUESTION BOX

Q.—Will all of the saved become spirit beings and enter into Heaven?

Answer.—The Scriptures teach that there are two salvations—"The narrow way" (Matthew vii, 14) and the "highway of holiness" (Isaiah xxxv, 8, 10). Two resurrections are also mentioned in the Bible (John v, 28, 29)—the one a resurrection to life immediately at the awakening of the dead, and the other a resurrection by judgment (the word "damnation" is not a correct rendering from the Greek), beginning at the time of our Lord's second coming. The "great salvation," the "narrow way," and the "first resurrection" (Revelation xx, 6) are conditions relating to the Church of Christ. The members of this class will experience a change of nature from human to spirit beings. Those obedient to Christ during His reign will be restored as perfect human beings—and as such will dwell upon the earth.

Life Cheap In Ohio.
Columbus, O., Sept. 14.—Crimes against the person were very numerous in Ohio during the year ending June 30, 1911, according to statistics compiled in the office of the secretary of state. Comprising murder in all degrees and manslaughter, there were 3,064 such crimes committed, and for these 3,253 persons were indicted and 1,263 convicted and sentenced.

Councilman Makes Confession

Three Others Seek Interviews
With Prosecutor.

Gary, Ind., Sept. 14.—Councilman Anthony Baukus, charged with accepting a bribe in connection with the granting of a heating franchise to T. B. Dean, has made a confession, and three other members of the council are arranging with the state's attorneys to give detailed statements of their part in the affair.

Baukus says that he saw Dean for the first time about three months ago, when Dean visited Baukus' saloon. They had a long talk about the ordinance for the heating plant, a copy of which Dean had with him, and Dean asked Baukus if he would be willing to take a present of \$500 extra besides his salary. At another meeting, in the Gary hotel, he confessed he figured with Dean how much the other members of the council ought to have, and Baukus said that he asked for \$1,500 for his share, and that at Dean's suggestion they went to Chicago and put the money in a safety deposit box. Baukus says he kept one key for the box and Dean the other; that there was an agreement between them that the money would not be paid over to Baukus until the ordinance was passed and signed by Mayor Knorr. The money was put in an envelope in Chicago and marked "contract." Dean signed his name on the envelope and Baukus signed it.

Baukus in his confession said that he asked Dean how much money he had to pay Tom Knotts, and Dean said that he would pay him \$5,000 to sign the ordinance. Baukus says that the total amount of money he was to get was \$1,500, but in the final check he accepted \$1,000.

Gaumer Withdraws Name.

Mansfield, O., Sept. 14.—C. N. Gaumer, retired editor and capitalist, an active candidate for delegate to the constitutional convention, withdrew from the race. His withdrawal was due to some extent to the entrance of Attorney John F. Kramer, former clerk of courts, into the field as the logical candidate of the dries. Attorney Robert B. McCroy, former mayor of Mansfield, will be the wet candidate. All are Democrats. All Republicans asked to seek the office have refused, so it will be a battle between the wet and dry forces.

Drunken Husband Shoots Wife.

Cleveland, Sept. 14.—Mrs. Blanche Roth was shot in the right side of the neck as she turned to speak to her husband, and two shots were fired at the little children as they drew close to their mother's side to protect her from the fusillade. The stricken woman rushed out into the street after receiving the shot that may cost her life, and fell into the arms of her 16-year-old son, who was returning home. Charles Roth, 40, husband of the woman, was arrested a few minutes after the shooting, and was charged with shooting to kill.

Confessed Murder of Child

(Continued From Page One.)

day and released for lack of evidence. Later he was again arrested, and within a few hours was in court and pleaded not guilty. Soon after being returned to his cell he called the turkey, notified him he wanted to get away from Madison because of fear of lynching, and then the court proceedings were rushed and completed before more than 20 persons knew of the new turn of the case. He was taken across country in an automobile to avoid an attempt at lynching.

In the presence of Chief of Police Rhaughnessey, District Attorney Nelson and Turnkey Poye, Johnson related that the deed was the result of a sudden impulse. He had watched through the bedroom window the little girl and her sister undress at bedtime on different occasions, and on the fateful night, at about 10 o'clock, shortly after the children had closed their eyes in sleep, he raised the sash and snatched little Annie from the bed, dragged her through the window, knocked her on the head with his fist, rendering her unconscious, so there would be no outcry.

GRAY HAIR MAKES YOU LOOK OLD

A Simple Remedy Brings Back the
Natural Color—Dandruff
Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days itching and dryness of the scalp entirely disappear.

Don't neglect your hair. Start using Wyeth's Sage and Sulphur today, and you will be surprised at the quick results.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agent, Brown's Drug Store.

Boyd Had Little With Him to Hold
Visitors In Check.

Cincinnati, O., Sept. 14.—In a sharply contested game between Cincinnati and Pittsburg the Pirates won out, 5 to 4. Raymond Boyd, once a member of the St. Louis Browns, started in for the home team, but apparently had little with him to hold the visitors in check, and had to be relieved after four runs and six hits had been made off him in five innings.

"The new idea in business is honesty, openness, frankness," said Alton B. Parker at a dinner at Esopus. "We used to conceal our plumbing, and very poor, unsanitary work it was. We expose it now, and it is altogether sound and wholesome and satisfactory. Well, business is like that."

"When I think of some of the tricks that used to obtain in reputable business firms I am reminded of the sea-side auctioneer."

"This scoundrel once held up a \$10 gold piece and said:

"Guess the date on this piece of money, friends. Make a guess and a small purchase, and the correct guesser takes the coin."

"So everybody in the crowd guessed, everybody bought some worthless rubbish, and the dealer netted a huge profit. Then, at the end, he looked at the \$10 gold piece, held it up and said:

"Now for it! Who guessed 1894?"

"Me! Me! Me!" cried every man jack in the shop.

"The dealer smiled.

"Then you all guessed wrong," he said, slipping the coin into his pocket. "The date is 1882."

EXTRA VOTES FOR NEW SUB-
SCRIPTIONS.

From Thursday, September 14,
to Thursday, September 21, at
5:30 p. m., extra votes will be
given as follows:

7000 extra votes will be given
for \$10.00 in New Subscriptions.
12000 extra votes will be given
for \$15.00 in New Subscriptions.
25000 extra votes will be given
for \$30.00 in New Subscriptions.

Remember—These extra votes
will be given besides the regular
number allowed for each sub-
scription and should not be con-
fused with the Double Vote Of-
fer for subscriptions for \$2.00 or
more, which closes Sept. 16th.

We want to again remind the
workers in our great popular voting
contest that the time of hustling is
relatively short. Only a little more
than two weeks now remain. Thus
far many have done well. It has
cost effort to do as well as they
have. The important thing for them
to do now is not only to hold what
they have but to prevent being pushed
hopelessly down in the race by
more energetic, more persistent, more
faithful workers.

A few in the race have apparently
made up their minds to let their
friends win the race for them by
sending in coupons. Again let us
say that no candidate ever won a
contest by coupons, either gathered
by herself or sent to the office by
friends. And another thing, let us
say, friends will not continue to vote
for a candidate who will not get out
and hustle.

The only candidates who will win
one of the Register-Herald's prizes—
the only candidate who deserves to
win—is the girl who works all the
time and each week takes advantage
of the special offers and turns in
subscriptions. Many a contestant
could get new subscribers in the time
spent running after coupons. Cou-
pons are all right and candidates
should get all they can conveniently,
but they should not chase coupons
at the expense of big boosts that
come only with subscriptions.

Attention, Contestants

Your attention is hereby called to
the Great Double Vote offer which
began Saturday Sept. 2, and lasts
until the evening of Saturday, Sep-
tember 16.

The big double vote offer above
mentioned has been inaugurated for
the purpose of allowing hustling
candidates "to do big things." It is
possible under this offer for contest-
ants to show to advantage just what
they are capable of doing in an ef-
fort to capture the elegant prizes.

Contestants will bear in mind that
this double vote offer does not effect
the other offers now in force, or yet
to be made, but is in addition there-
to.

Below we publish for your guid-
ance the complete double vote offer
which will be in force and effect
during this period. Examine it care-
fully in order that you may fully ac-
quaint yourselves with its impor-
tance.

Please note that there is no in-
crease in the number of votes
given on \$1.00 subscriptions to
either the Register or Herald. To
secure the benefit of the Great Double
Vote Offer, subscriptions to the
Register, new or old, must cover two
years, and to the Herald, must cover
at least six months. The longer the
time on either paper, the the subscrip-
tion new or old, the larger the vote.

receives the second highest number of
votes will receive the H. Link & Son
Upright Piano with this restriction,
that if the player piano is won in dis-
trict No. 1, the upright piano must
be awarded to the opposite district,
or vice versa. In this way one of the
grand prizes will be won in Washing-
ton and one outside of Washington.
After the grand prizes have been
awarded, the names of the winners
will be stricken from the list and the
1st prize. The same plan will be used
holders of the first places will then
be given the prizes known as District
in awarding the District 2d prizes.

Remember, three prizes will be
given to each district, and each and
every candidate will receive a square
deal. One district will not have the
advantage over another. District
No. 1 will receive a grand prize and
two district prizes. District No. 2
will also receive a grand prize and
two district prizes.

LONDON LANDS
FREE DELIVERY

London, Ohio, citizens are much
elated over the news that on Decem-
ber first, 1911, free mail delivery
will commence, and that instead of
every resident of the town being
compelled to go to the postoffice af-
ter his or her mail, three uniformed
carriers will deliver the mail to their
door.

London has been fighting for this
system for several years, and the of-
fice became eligible in 1909, but the
department has been slow in grant-
ing mail delivery until last week
word was received by Postmaster
Hornbeck, who has been keeping the
matter before the eyes of the post-
office department, that on December
1st the first mail would be delivered,
and for him to prepare plans ac-
cordingly.

This is a great blessing to London
citizens, and one they are rightly en-
titled to, and if our hustling neigh-
bor is just a little chummy over the
new acquisition, it is certainly par-
donable in this instance.

dead, three are dying and 11 more
badly injured.

The disastrous wreck occurred half
way between Franklin and Warren
road. Three of the injured, all of
whom are at St. Alexis hospital, will
die, according to the surgeons.

The wreck was evidently due to a
misunderstanding of signals, the
work train backing from a siding di-
rectly in front of the freight, which
was moving at high speed toward
Cleveland.

When the engine turned over a
great cloud of escaping steam caught
the men who were pinned down be-
neath the timbers of the wrecked
cars. The men had been working on
an uncompleted section of the new
belt line track. Ben Tripp, known
as "Big Ben," whose home is in To-
ledo, was engineer of the freight
train. He leaped through a window
of his cab and, beyond severe
bruises, escaped injury.

Baked Meat Loaf

Two cups of chopped meat, two level tablespoons of butter, one-half cup of stock or water, two tablespoons of bread crumbs, one teaspoon of salt, one-fourth teaspoon of pepper. Put the above ingredients on stove to heat. When hot take from stove and add yolks of three eggs beaten light, then fold in whites beaten stiff. Put in pan and set pan in hot water and bake fifteen minutes.

Sauce—Put in double boiler two level tablespoons of butter. When melted add two level tablespoons of flour and blend thoroughly; one-half cup of stock or water, one-half cup of milk, one-half teaspoon of salt, and a little pepper, yolks of two eggs beaten light. Turn loaf out on platter and pour sauce over it. Garnish with parsley and slices of hard boiled eggs.

Tomato and Apple Preserves

Take equal amounts of ripe tomatoes and sour apples and sugar. Have apples quartered and cook until transparent. Lemon or orange can be added if desired.

Spanish Peppers

Prepare six sweet green peppers by cutting off one end of each and removing all seeds and ribs, leaving them so they will stand upright. Cut enough raw corn from the ear to make three teaspoonfuls, slicing it off thinly two or three times around and scraping the remaining pulp from the cob. Chop fine one onion and three sweet red peppers and fry these ten minutes in a little butter, with two ripe tomatoes cut small. Add the corn, season with salt, fill into the peppers till they are even full, and on top of each lay an inch thick slice of ripe tomato as a cover. Salt and pepper the latter and sprinkle with well buttered cracker crumbs. Set closely together in a baking pan with a little water in the bottom and bake three-quarters of an hour, basting the outside of the peppers every ten minutes.

Almond Cookies

Beat to a hard sauce, one-fourth pound each of sweet butter and pulverized sugar, sifted. Add the yolks of three well beaten eggs. When a smooth cream, add four ounces of blanched and sliced almonds and six ounces of flour in which has been sifted a scant teaspoonful of baking powder. Stir with a wooden spoon until a smooth paste. Use sugar in making the dough into balls. Set these an inch apart in a greased pan, wet the tops lightly, sprinkle sugar over them, and set half an almond in the center of each ball. Bake a delicate straw color. Dainty cakes, especially nice to serve with luncheons or afternoon teas.

Candied Grapes

Pick grapes from stem, wash carefully, then place in jar; have boiling water ready and pour entirely over them; let stand twenty minutes, then pour off and repeat twice more. When the third water is put on, place sugar in water on stove to make thick sirup; quantity cannot be given, as it depends on size of jar. Then pour off water and fill with sirup. Then seal as any other fruit. The grapes are delicious when opened and will keep for years. Care should be taken not to break skin. Cherries and plums may be put up the same way.

Cedar Chest

Get a large pine packing box from the grocer. Hinge on the lid and putty up the cracks. Purchase a bottle of oil of cedar from the drugist and paint the inside of the box being sure that the oil soaks into all the cracks and crevices. Use the oil plentifully and when thoroughly dry, line the box with cambric; cover the outside with any preferred material. The oil of cedar retains its odor for years and is as much disliked by moths as the cedar wood itself.

Creole Gumbo

Clean a nice young chicken, cut in pieces, and fry in hot lard. Add a large sliced onion, a spoonful of flour, two dozen shrimps, two dozen oysters, and a few pieces of ham. Fry all together and when brown add a quart and a half of water and let boil for an hour. Season with chopped parsley, thyme, salt, and strong pepper. Just before removing from fire, while boiling, stir in quickly a teaspoonful of powdered file. Serve hot with rice, cooked dry.

Almond Macaroons

Slice thin one-half pound of almond paste, crumble fine with two-thirds of a pound of coarse powdered sugar, and one teaspoon of flour until it looks like coarse cornmeal. Stir this gradually into the well beaten whites of four eggs. Lay out on papered tins with pastry bags and tube. Bake twelve to twenty minutes in slow oven. When cool wet under side of paper and remove macaroons.

Cocoanut Macaroons

Beat the whites of three eggs stiff, add gradually two cups of powdered sugar, two teaspoons of baking powder and two cups of grated cocoanut. Drop with teaspoon the size of a hickory nut on papered tins. Bake twenty to thirty minutes in slow oven.

Tomato Salad

Wash and cut in small pieces, but do not chop, one large ripe tomato, one small onion, and one green pepper. When ready to serve, pour over salad one-half cup good vinegar, one teaspoonful sugar, one-quarter spoonful salt, and dash of pepper.

Floor Cleaner

Buy a common blackboard eraser and fasten it firmly to an old broom handle. If the eraser is dipped into a little coal oil it will take up all lint and dust and polish the floor at the same time.

VISIT SPOILED 'CAUSE HE LOOKS LIKE SUNNY JIM

Iowan Sight-Seeing In Capital Mistaken for Vice President.

WASHINGTON, (Spl.)—"This is a pretty nice town, but I'm never going to come back until Jim Sherman ceases to be vice-president."

This is the private opinion of William P. Chambers, of Corwith, Iowa, publicly expressed after a day of nerve racking experiences in the course of which he was mistaken for "Sunny Jim" by about two out of three persons who spoke to him.

Chambers arrived in Washington after a motor trip from his home town and started in to see the sights. Leaving his hotel he strolled down Pennsylvania avenue about noon and almost immediately met a tall individual in a frock coat and silk hat who inquired:

"Ah, Mr. Vice-President, aren't you a little late for the session today?"

Mr. Chambers thought it a little strange that anyone in Washington should know that he was vice-president of the Farmers' and Merchants' Bank at Britt, Iowa, but he did not protest.

A little while later he wandered up to the Capitol to see the two senators from his native state, but, after spending a strenuous half hour, answering questions addressed to him by persons who mistook him for the presiding officer of the Senate, he left in disgust.

The likeness between "Sunny Jim" and the man from Iowa caused a large amount of comment at the Capitol and grave fears were expressed lest the two Bromios should get mixed up and on one would be sure which was which.

According to Chambers' statement he was invited to lunch nine times by members of the House who had known the Vice-President when he was in that branch of the legislature and he says that the clerks at the hotels in New York and this city were so sure that he was the second Executive officer of the nation that they almost insisted that he sign his "real name" on the registers.

Finally Mr. Chambers got so peeved that he climbed into his buzz wagon and Washington will see him no more until after a change in the present administration, for he does not consider it a joke to be a "living likeness."

Just as the Iowan's machine was passing out of the city the last mistake took place. One of the traffic squad, who had an idea that the automobile was exceeding the speed limit, rode up to the machine and started to inform the occupant that he would have to go with him to the station house. When Mr. Chambers lifted his goggles, however, the policeman gasped, bowed and ejaculated:

"Excuse me, Mr. Sherman, I didn't know it was you."

Whereupon Chambers smiled grimly and resumed his 1500-mile journey homeward.

She Knew.

"And you allowed that young man to kiss you?"

"Yes."

"That was very indiscreet."

"Not at all. I had looked at his financial standing."

DISTRICT FIRST PRIZE

\$200 Bed Room Suite

In Circassian Walnut, consisting of one standard sized Dresser, one Chiffonier with five large drawers, and one Bed with the new style roll top head and foot boards.

This suite would adorn a palace. It is a prize that will stand the test of time. It will ever be a thing of beauty, fit to hand down to children and grandchildren as an heirloom of Twentieth Century art.

This prize can be seen at the store of The Fayette County Hardware Co., where it was purchased. This firm's well known reputation for square dealing is a sufficient guarantee that this beautiful prize is all that is claimed for it.

DISTRICT SECOND PRIZE

\$40 HAVILAND CHINA DINNER SET

This eighty-piece genuine Haviland China Dinner Set, which was purchased of S. S. Cockerill & Son, will be awarded as the District Second Prize.

Haviland & Co., the makers of this beautiful ware, and S. S. Cockerill & Son, the local dealers, guarantee each piece in this set to be absolutely perfect in every way. Each piece bears two stamps. The green one shows that the body of the article was made by Haviland & Co., while the red stamp is a guarantee that the decorations are also a work of this wonderful factory. When examining these dishes please note that they bear both the green and red stamps.

This ware is beautifully decorated in gold, and each piece has been kept free from water so that the monogram of the owner may be put on if desired. The set consists of the following articles: 12 Dinner Plates, 12 Pie Plates, 12 B. and B. Plates, 12 Teas and Sauces, 12 Fruit Sauces, 1 meat Platter, 1 Footed Salad Dish, 1 Baker, 1 Sauce Boat, 1 Covered Sugar and 1 Creamer.

First Grand Prize

\$600 Schaff Bros. Player Piano

This beautiful Player Piano will be given to the person having the largest number of votes in the Register-Herald's Great Voting Contest, and was bought of J. A. Smalley, who has the instrument on exhibition at his storeroom on West Court street, next door to the T. C. DeWeese Photo Gallery. A cordial invitation is extended to all to call and examine this beautiful prize.

This player piano carries with it an unlimited warranty and is the most simply constructed player on the market, one lever acting for the tempo, start, stop and rewind, making it possible for a child to operate it and play any style of music, from ragtime to the most classical.

The tone of this instrument, its volume of sound and artistic workmanship have earned for it the distinction of being one of the finest player pianos ever brought into Fayette county. Call at Smalley's store on West Court street and examine this prize.

2nd Grand Prize

\$265 Link & Son Piano

This piano, also made by the Schaff Bros., of Chicago, Ill., and Huntington, Ind., has no equal on the market for the price. The people making this piano have been located in Chicago since the year 1880, since which time their financial rating has been unsurpassed by any of their competitors. They were the first firm to make upright pianos in Chicago after the great fire of 1872, and a steady improvement has marked the quality of their product ever since.

This piano was purchased from J. A. Smalley and is on exhibition at the storeroom next to the DeWeese photograph gallery. The many excellent features of this instrument, combining a double veneered maple-lined mahogany case, light, perfectly balanced and sympathetic action and soft mellow tone make it one that anyone who is a lover of music would be proud to own.

DISTRICT FIRST PRIZE

\$125 Diamond Ring

This ring was purchased at the store of C. A. Gossard & Co., who guarantee it to be a pure and flawless stone. If C. A. Gossard & Co. added not one word of assurance, this beautiful little gem would speak for itself.

The perfect color, correct cut and proportion give it the scintillating brilliancy that comes only in the perfect stone. It is a gem no better than which adorns the hand of royalty—it is a prize that any young lady may well strive for.

To the energetic woman who wins it, this beautiful gem will be as a legacy in the bank. Its value is eternal and can never grow less. The person who wins this prize is not required to take the ring which we have selected, but CAN HAVE THE CHOICE OF ALL \$125 DIAMONDS in the store of C. A. Gossard & Co.

DISTRICT SECOND PRIZE

\$75.00 Diamond Ring

This stone, purchased of W. H. Hettesheimer, Jeweler, is not quite as large as the diamond offered as the District First Prize, but it a good sized gem, perfect in color and absolutely flawless. It has a Tiffany setting, and will make a splendid prize for some worthy young lady.

W. H. Hettesheimer guarantees this ring to be exactly as it is here advertised, and the person who wins it can have their CHOICE OF \$75 DIAMONDS IN HETTESHEIMER'S store.

Young ladies, here is a chance to secure that coveted diamond. Perhaps you may never have the opportunity of getting another. Some person is going to be the proud possessor of this valuable prize. Why not you? It will not cost you a cent.
